SUMMARY OF WORK

Senior Front-End Developer with 3+ years of experience building scalable, enterprise-grade web applications in Angular and TypeScript. Domain expertise spans low-code platforms, customer-facing loan portals, insurance claim systems, and CRM modules, with a consistent focus on clean component architecture, robust API integration, and intuitive, responsive user interfaces. Currently expanding into Node.js and Express.js to develop full-stack capability and deliver more cohesive end-to-end product outcomes.

WORK-EXPERIENCE

Sr. Angular Developer

Oct 2025 – PRESENT

APC Global CPK Systems Pty Ltd | Melbourne, Victoria

- Migrated a legacy dashboard from Angular 6 to Angular 21, modernizing the codebase to a standalone component architecture and resolving third-party library conflicts that were blocking the upgrade path.
- Diagnosed and resolved a critical issue in the C3 charting library where in-file static modifications were preventing version upgrades; refactored the implementation into a maintainable, upgrade-safe solution.
- Enhanced application performance and code quality through systematic refactoring, lazy loading, and adoption of Angular best practices.
- Partnered with the Product team on an end-to-end product redesign and designed frontend API integrations in close collaboration with the backend team to define contracts for new endpoints.
- Contributed to a parallel React-based initiative and extended technical scope into backend review of C#/.NET architecture, database views, and stored procedures, broadening full-stack alignment.

Angular Developer

Sep 2022 – Oct 2025

Techextensor Pvt. Ltd. | Ahmedabad

- Developed a scalable low-code platform leveraging Syncfusion and Form.io, designing standardized, reusable components that significantly accelerated application generation across teams.
- Engineered dynamic data analysis dashboards and customer-facing loan platforms featuring real-time validations and fully responsive user interfaces.
- Contributed to the database layer by authoring SQL views and stored procedures, ensuring efficient backend data handling and seamless frontend-backend integration.
- Developed CRM and project management modules that improved workflow visibility, internal team coordination, and client interaction.
- Conducted regular code reviews and enforced Angular best practices within an Agile delivery environment, supporting consistent code quality across the team.

Frontend Developer

Jan 2022 – Jun 2022

Codezee Solutions Pvt. Ltd. | Surat

- Translated Figma design files into responsive, cross-browser web pages using HTML5, CSS3, and JavaScript, ensuring accurate implementation of design specifications.
- Leveraged Bootstrap and Tailwind CSS to develop modern, mobile-friendly UI components aligned with contemporary design standards.
- Prioritized performance optimization and accessibility across devices, contributing to a smoother and more inclusive end-user experience.

PROJECTS

Legacy Dashboard Modernization

- Migrated an enterprise analytics dashboard from Angular 6 to Angular 21, adopting standalone components and lazy loading to improve performance and reduce bundle size.

- Resolved a critical C3 charting library blocker where in-file static modifications were preventing version upgrades, restoring a clean upgrade path.
- Partnered with the Product team to translate redesigned business requirements into production-ready features.
- Mentored a junior developer through code reviews and task delegation, maintaining team-wide code quality.

TechAppForce

- Designed and contributed reusable Angular components that powered rapid application generation across multiple client implementations.
- Engineered standardized UI features to enhance user engagement and ensure visual consistency across the platform.
- Supported the team with continuous development of new modules and feature enhancements.
- Coordinated with Project Managers and QA teams to maintain smooth delivery cycles and production-ready releases.

Bank Loan Portal

- Architected a microservices-aligned frontend to support modular scaling and simplified long-term maintenance.
- Developed a dynamic loan application system with a strong focus on user experience and usability.
- Built reusable Angular components featuring dynamic forms and real-time field validation.
- Optimized the interface for mobile responsiveness, significantly improving customer engagement and end-to-end completion rates.

Phoenix

- Built modular, maintainable Angular components capable of supporting complex multi-step claim investigation workflows.
- Integrated RESTful APIs to fetch, display, and manage investigation data efficiently across diverse user roles.
- Collaborated closely with QA teams on rigorous testing cycles to ensure stable, bug-free production releases.

EDUCATION

Bachelor of Engineering in Electronics and Communication,
Gujarat Technology University

2018 – 2022

SKILLS

- **Frontend skills:** Angular (6 to 21), TypeScript, JavaScript (ES6+), RxJS, Signals, Standalone Components, Reactive Forms, NgRx, Angular Material, Angular CLI, Lazy Loading, React, HTML5, CSS3, SCSS, Bootstrap, Tailwind CSS, Responsive Design, Accessibility (WCAG)
- **Backend & APIs:** Node.js, Express.js, REST APIs, JWT/OAuth, C#, .NET, SQL (Views, Stored Procedures), MySQL, PostgreSQL
- **Tooling & DevOps:** Git, GitHub, GitLab, Bitbucket, npm, Webpack, Vite, Postman, Swagger/OpenAPI, Jira, Confluence, Figma, CI/CD basics (GitHub Actions / Azure DevOps)
- **Testing:** Jasmine, Karma, Unit Testing, Debugging
- **Architecture & Practices:** Component-driven design, Microservices-aligned frontends, SOLID, Design Patterns, Code Reviews, Mentoring, Agile/Scrum

AWARDS & RECOGNITION

The Catalyst of the year | Techexetensor Pvt. Ltd. | Ahmedabad

March 2025

- Recognized for initiative, project leadership, and driving meaningful enhancements to the development processes of the Project Management System (PMS) and CRM platforms.

Akalavya Award | Techexetensor Pvt. Ltd. | Ahmedabad

March 2024

- Honored for sustained dedication and technical expertise in front-end development, with consistent delivery of robust Angular-based web solutions.
